kmcdowell@waterboards.ca.gov**

**The complete Aquatic Invasive Species Draft Management Plan is available
at:
http://sfep.abag.ca.gov/projects/invasive_species.html**

The primary purpose of the public comment period is to identify rather than to debate comments on the draft management plan. In that context, please consider the following suggestions...

- Be respectful of one another.
- Take turns speaking and do not interrupt each other.
- Limit speaking time to a maximum of 3 minutes so all participants have a chance to share. If there is time, you can speak again.
- Focus comments on issues relative to the Management Plan.
- Be candid and honest, but do not attack or put-down other people.
- Focus on the future you would like to create, rather than past you cannot change.
- Take personal responsibility to ensure that everyone is treated equally.
- Please hold questions until the speaker has completed her presentation.
